

Herington Hospital Announces Imminent Closure

October 8, 2023. Herington, Kansas. The Herington Hospital Board of Directors today announces plans to cease Herington Hospital and associated Clinics operations possibly as soon as October 11th, 2023. This decision follows extensive evaluations and considerations stemming from lengthy financial struggles and consistently low patient volumes.

Herington Hospital has provided healthcare services to the community since 1919. The support from the Herington community has been invaluable throughout our history, not only in choosing Herington Hospital for care but also in the countless volunteer hours given over the years. We deeply appreciate the community's engagement and their integral role in shaping the hospital's legacy.

While this moment marks an end of an era, it is also an opportunity to recognize the unwavering dedication of our employees, nurses, physicians, volunteers, and board members who have given their heart and soul for over a century. Their legacy of commitment to the Herington community will endure in the countless lives they have touched over the years.

Medical Records will continue to be maintained at Herington Hospital.
